EXPERIENCE

Financial Analyst (FP&A)

Google | Search & Commerce | Jun 2022 - Present | New York, NY | Los Angeles, CA

- Led annual planning for Google Search and Commerce; balancing budget targets with product strategy. Oversaw end-to-end process by clarifying the baseline, developing a budget recommendation, presenting to executive leadership, and communicating outcomes to business partners.
- Developed strong relationships with 50+ cross-functional business partners to ensure the free flow of information and support business decision making. Consistently received positive feedback on subject matter expertise and approachability.
- Drove operational improvements by streamlining data taxonomies, automating repetitive workflows, and implementing scalable solutions to better meet business needs and free up ~25hrs/month for higher-impact work.
- Owned traditional FP&A activities including month end close, forecasting, budget management and performance tracking, ad hoc analysis and reporting for a \$XXXM budget.
- Provided leadership with analytical insights into business drivers, risks and opportunities through reviews of our budget, product P&L, company earnings and ad hoc topics such as payroll and content costs.
- Fostered community by running team and site-wide events for >70 Googlers including the annual summer picnic, Olympics watch parties, and competitions for current events.

Associate Finance Analyst (Rotational Analyst)

Google | International Controllershship & Sales Finance | Jan 2020 - Jun 2022 | Sydney, Australia

- Completed a competitive, five-team rotational program, gaining broad-based finance experience across controllershship, governance and reporting, and sales finance.
 - Acted as the Finance approver for deals; evaluating contracts for business risks and ensuring cross-functional alignment and compliance with internal standards.
 - Worked on the global standardisation of external financial reports by creating templates and reviewing mapping for ~3000 accounts across 22 international entities.
 - Prepared quarterly operational reviews utilising flux analysis and communication with multiple finance teams to understand the business context of key movements.
 - Prepared financial statements for external audits.
 - Led user acceptance testing during Google's ERP transition, ensuring seamless system implementation with minimal disruptions.
 - Identified \$XXM headroom opportunity for the regional sales team via a deep-dive analysis of the market and internal and external financial data and presented findings to senior leadership.
- Contributed to the Finance community by creating newsletters viewed by 250+ APAC colleagues, producing media for multiple internal finance events, and presenting to 200+ students at virtual campus recruiting events.

Analyst (Corporate Advisory)

Deloitte | Young Achievers Cadetship | Jul 2017 - Nov 2018 | Sydney, Australia

- Assisted motor industry clients with financial reporting, benchmarking, and variance analysis, providing data-driven insights for strategic decision-making; centered around online reporting product.
